PRELIMINARY — SPECIFICATION ON REQUEST

Values are shown only where verified for a lot. All other parameters are confirmed in a lot-specific specification, CoA or laboratory report before contract.

DRIED HERBS & BOTANICALS

Dried Rosemary

Dried rosemary leaf from one of the world's leading rosemary origins — whole, cut or ground, steam-treated or untreated on request.

Illustrative photography. Not the company's own facilities or produce.

Supply & availability

Harvest period	May–Nov — Based on public trade reporting
Processing period	Confirmed per lot
Availability from storage	May be offered from stored, dried stock outside the harvest period — subject to production, stock and quality verification for each lot.
Confirmed stock	No confirmed stock listed
Programme status	Open to enquiry

Dried ingredients may be traded throughout the year, subject to production, stock and quality verification.

Typical packaging

Lined export cartons
Cartons with food-grade liner, typically for cut, rubbed or ground product.

Woven PP bags with liner
Food-grade woven polypropylene sacks for bulk whole or cut herbs.

Multi-wall paper bags
Food-grade paper sacks, often for ground product.

Palletised & wrapped
Labelled per batch, stretch-wrapped for ambient freight.

Technical documentation

Ingredient buyers approve suppliers on paper. These are the documents we provide for dried ingredients — only genuine documents for the lot offered, never samples or templates.

No documents are published yet. Documents are provided per lot for qualified enquiries.

Business-to-business supply only. Products are food ingredients for culinary and manufacturing use; we make no health or medicinal claims.

COMMERCIAL CONTACT

Tell us species, form, particle size, analytical limits, packaging, volume and destination. We respond with a lot proposal and its documents — or an honest explanation if we cannot supply.
